**In-Home Care** - A relative, friend or someone else that you hire to care for your child in your home. This option is not regulated.

**Nursery Schools** - Facilities for 3 or more children under that age of 7 that provide half-day care, not including kindergarten programs. Parents often combine these programs with other types of child care to create a full-day child care "package." Nursery schools must be licensed by the DHS and meet minimum standards.

**Head Start** - This program offers educational programs to low income preschool children including children with special needs. Other important services such as medical, dental, educational, mental health and social services are also offered. It is not a full-day child care program although some are run in collaboration with child care centers for full-day care.

As you can see, there are a number of different types of child care facilities out there. More information regarding child care options in your area can be found by contacting Penquis Child Care Services at 120 Cleveland Street, Bangor, ME 04401, by telephone at 207-941-2840, and by fax at 207-941-2843.
